

The Phenomenology of User Privacy and Security Decision-Making: Practice What You Preach

Thomas Reynolds
University at Albany

a Lightning Talk
Symposium On Usable Privacy & Security
Carnegie Mellon University, July 2011

“Usable” “Privacy” “Security”

human activity

society

culture

social-psychology

people, like us, for example

alert introspection is a tool

eg *verstehen method*

(Max Weber, Georg Simmel)

**from Wikipedia "Sociology#Methods":
"a systematic process by which an
outside observer attempts to relate to
a particular cultural group ... on their
own terms and from their own point of
view"**
